

# Information Technology Staffing Solutions

## Impacting Your Business with Top IT Resources

MGT knows that building the right-sized team is a critical component to any successful project. Our IT staffing services offer the expertise and flexibility that our clients need to augment their teams in a way that is productive, convenient, and cost effective. MGT has a global database of applicants and state-of-the-art technology and processes to identify the best staffing solutions.

We are committed to upholding the highest standards of service by increasing the size and productivity of a team with highly qualified professionals and a flexible support network. With a pipeline of carefully screened candidates, MGT can quickly, and cost effectively allow businesses to find the right fit for hard-to-fill or temporary positions, increasing the scalability and productivity of a technology team.

### Solutions include:

- Custom recruitment by IT experts to match your specific needs
- Temporary, temporary-to-permanent, and long-term/permanent placements
- Agile sourcing to meet immediate needs
- Stringent vetting for resources to ensure best-in-class candidates
- Continued communication among talent and client
- Prior clients include supporting Fortune 500 companies across the country

**We are the expert partner who provides fully managed delivery teams to individual expert IT professionals, specializing in solid end-to-end delivery of tailored technology solutions.**
